

# We Can Hide Out

Ofenbach

We can hide out at the edge of the world, we can hide out  
Never slow down, to we're not sure,  
We can make it better when we do it we'll do it together  
We can stand down, but we won't, just keep it together, man don  
't fall under pressure  
We can rise up, rise up, stiff as a board, light as a feather

Follow me to the edge of pretend, that we're falling  
Follow me to the end, you know there's only so far we can take  
it

We can hold up, or we can let go, we might have to stand down  
We can give out or give in, we take it all for granted with suc  
h reckless abandon  
We can hide out, we won't  
Everything is better when we do it so let's do it together

Follow me to the edge of pretend, that we're falling  
Follow me to the end, you know there's only so far we can take  
it

No thanks to you, no thanks to you, everything is better when w  
e do it together  
No thanks to you, no thanks to you, everything is better when w  
e do it together

Follow me to the edge of pretend, that we're falling  
Follow me to the end, you know there's only so far we can take  
it  
As long as you're dreaming  
Follow me to the edge of pretend, that we're falling  
As long as you're dreaming  
Follow me to the end, you know there's only so far we can take  
it  
And that's how the dream ends
