

Golden Dreams

Off Bloom

Take all my golden dreams
Got something in mind, girl
Oh, are you ready?
We're catching stars in the night
They don't know how to fight
Oh, we got it, got it

One drink, two drinks, three drinks
I can't see things
Drunk all this time, we do it, yeah
Four drinks, five drinks, six drinks
I can't feel things

You're in my golden dreams
You're in my
You're in my
You're in my golden dreams
You're in my
You're in my
You're in my golden dreams

I [?] you cold and clean
Reach stars through your eyes, yeah
Oh, them another boys
We chase the dreams in the light
They're always out of sight
Oh, much further, and further

One drink, two drinks, three drinks
I can't see things
Drunk all this time, we do it, yeah
Four drinks, five drinks, six drinks
I can't feel things

You're in my golden dreams
You're in my
You're in my
You're in my golden dreams
You're in my
You're in my
You're in my golden dreams

They got my gold, gold
They got my golden dreams
They got my gold, gold

You're in my golden dreams
You're in my
You're in my
You're in my golden dreams
You're in my
You're in my
You're in my golden dreams

They got my gold
They got my gold, gold
They got my gold

They got my gold
My gold, gold dreams
