

Hit & Run

Off Bloom

You wanna be my army clothes
You wanna see me when my eyes are closed
I nod and see you try you most
But I was only here to buy new clothes
I need you to quit it
I-I-I

I could easily give into my feelings
But that wouldn't change a thing
So don't even think that it's about you baby
I'm sorry

You are my hit & run
Run
I didn't think I could fire a gun
Hurtin' someone
You are my hit & run
Run
Running from you in the morning you see
That's my duty
You are my hit & run

You are my hit & run

I wake up lying next to you
The smell of cigarettes and old perfume
You tryna meet the game I play
But you can't help but overcompensate
I have to admit it
I really need to quit this

I could easily give into my feelings
But that wouldn't change a thing
So don't even think that it's about you baby
I'm sorry

You are my hit & run
Run
I didn't think I could fire a gun
Hurtin' someone
You are my hit & run
Run
Running from you in the morning you see
That's my duty
You are my hit & run

You are my hit & run
You are my hit & run

You are my hit & run
You are my hit & run
Running from you in the morning you see
That's my duty
You are my hit & run
