

Lover Like Me

Off Bloom

I'm tryna find it
Feelin stranded
For a while I almost thought that I had it (had it)
It didn't last for long

Said you're bad luck
Got me all stuck
Seems to me that I was wrong in everything I got
'Cause I want a lot

Someone to care and to please
Good is good enough for me (good enough for me) ay
Prioritise what I need
Good is good enough for me, good enough for me (ay)

I wish I had a lover like me
That get me in the motion, slow motion
Someone that's good for my body
I wish I had a lover like me
Who get me in the motion, slow motion
Someone that already knows me
I wish I had a lover like me

I'm in the right mood
Feeling all good
Seems to me I finally got what I wanted
And I want a lot

Said you're bad luck
Got me all stuck
Seems to me that I was wrong in everything I got
'Cause I want a lot

Someone to care and to please
Good is good enough for me (good enough for me) ay
Prioritise what I need
Good is good enough for me, good enough for me (ay)

I wish I had a lover like me
That get me in the motion, slow motion
Someone that's good for my body
I wish I had a lover like me (had a lover like me)
Who get me in the motion, slow motion
Someone that already knows me
I wish I had a lover like me

I'll own it
Keep your things you thought you never wanted
Just to keep you informed of that
I'm the kind of savage you would never
Have

Now now now things you thought you now now never wanted now now now formed o
f that now now

I wish I had a lover like me
That get me in the motion, slow motion

Someone that's good for my body
I wish I had a lover like me (had a lover like me)
Who get me in the motion, slow motion (to get me in the motion)
Someone that already knows me
I wish I had a lover like me (had a lover like me)
That get me in the motion, slow motion
Someone that's good for my body
I wish I had a lover like me (had a lover like me)
Who get me in the motion, slow motion
Someone that already knows me
I wish I had a lover like me
