Off Bloom

Now all of this is to stop, I think we all got enough
Can't believe I'm in the chaos of this anymore
It leaves me all naked and down on the floor, yeah
No, not anymore
It's crawling under my skin and you're not feeling a thing
Blows my mind that you'd act like this after all that we've been through
Yeah, all that we've been through
No, not anymore
You are lower than I ever thought you could be
Never saw this coming, so glad I'm free
Hey baby, you're on your own
And you see me still hustling

Hustling your name, hustling your name
Hustling your game
I said, ooh, you're funny
Hustling your name, hustling your name
Hustling your game
I said, what you have, money?
Hustling your name
And you see me still hustling

But now some time has gone by and I went on with my life
Walk the streets of the city with my man in my head
And now I have one thing on my mind, hmm
It's time to let go
I'm falling into his arms so we can finally see
All the men on this journey, wasn't all it comes to be
You should just let it be
And you see me still hustling

Hustling your name, hustling your name
Hustling your game
I said, ooh, you're funny
Hustling your name, hustling your name
Hustling your game
I said, what you have, money?
Hustling your name
And you see me still hustling

Let me down, down
I'm not letting you down
Never seeing me around
Bang, bang, bang, I know what I said
That I really did care for you
But you shut me down

Hustling your name, hustling your name
Hustling your game
I said, ooh, you're funny
Hustling your name, hustling your name
Hustling your game
I said, what you have, money?
Hustling your name, hustling your name
Hustling your game
I said, ooh, you're funny
Hustling your name

What you have, money?
What you have, money?
Hustling your name
