

Throw your hands up
To the biggest star up
No we'll never stop

Our love is in our hearts
Throw your hands up
He never gave up Music never stops
Your love is in our hearts

Even you had to deal with so much
You never hide
I know you keep on dancing
On the other side
And nothing could take away your smile
The Angels were waiting for you
And you will forever be a star
Shining above us not so far
