

# Overthinker

Offica

Time is ticking  
My head is a clock  
Mind of an overthinker (hmmm)  
The difference with me and bro is  
He gets highs I sip my liquor  
The smoking ain't helping his lungs  
And the drinking ain't helping my liver (at all)  
There's a million ways to get rich  
We're wondering how we could do shit quicker

Wondering how we can make shit bigger  
See two heads they're better than one (that's facts)  
Looking back since 019  
Like broski look at the shit we've done  
Like look at the men we become (look at the men we become)  
Maybe because people saying that we made it at home  
Browski now we just begun  
We used to beef now we just have fun  
Mo fe kun le fun mama mi (amin)  
Maybe take her to Miami (amin)  
Have momsi covered in Versace  
I know that they hate but they can't catch me (at all)  
I lost the so-called love of my life  
See, I don't believe in love  
Don't think I will find me a wife (I have tried)  
Lord knows I have fought and tried

Lord knows how hard I tried

Time is ticking  
My head is a clock  
Mind of an OVERTHINKER  
The difference with me and bro is

These days don't sleep at night it's peak  
4am man's thinking about life  
And some of the shits man has done in the streets  
Niggas say they've got me but I know is lies  
Trust me, man, I ain't surprised  
You can fool me once, not twice  
Mans not into the friendship hype  
I got people that I love that are toxic  
So I love them from a distance  
Fans said they want more said I should drop more  
Said I should be consistent  
I don't know what it is these days  
Man I feel like I'm running insane  
I'm an overthinker trust me I think in a million ways
