Whoa

Shawty a baddie, she belong to me
She got a fatty, I'm paying the lease
Boarding the jet and we going to Greece
We having sex on the boat, on the beach
Took off the top so you know that it's me
She like my dough and my steeze
Beautiful, different little species
Fast, she look like my speed
Panoramic with the Marilyn Monroe
Himalayan cost a quarter for sure
Dior Croci with the white on her toes
Micky Moto pearls, they come out the ocean
Picking up racks like they grow off of trees
Spoiling her but say, "Please"
Order her, the APs
Affording her, she ain't leased

Clover Dem, Vancleef
I order 'em by the threes
Deported her overseas
We on the water by the beach
To Monaco, flew to Portugal, on a roller-coast, steady
Coming home, close, baby
Keep it warm and moist, ooh-wee

I show you how to live
Put you down, I can show how to count a M
Barely talk but she give me all kind of lip
Fuck the clout, I can show how to make it flip
I pull up and pop out, show 'em what it is
I pull up and pop out, show 'em what it is
Bad bitches, they already know I'm him
Bad bitch with the kit 'bout to break her hip
Grave digger, I'm digging all in her ribs

Shawty a baddie, she belong to me

Bossing her up, bought her Bentley Bentayga, then bought a boutique
I put her up, she got bands in the cut, it ain't nothing she need
Bad little ting, she my dramatic queen
Pop out and smash the scene
She got on Eddies Slomen
I watch and seen ya grow, from a princess to a queen
She rocking Martine Rose, she spoiled and she living the dream
