

Never Let Go

Offset

I lost my brother, but I gained an angel
I remember all the times we had, forever I'm grateful
If I could get one more time to see you again
I would hold you tight and never let go, my friend
I lost my brother, but I gained an angel
I remember all the times we had, forever I'm grateful
If I could get one more time to see you again
I would hold you tight and never let go, my friend

Whoa, whoa
Legend on the north, legend in the game
Play back all the memories, hoping they don't fade
Bando to the jet, jet to the stage
Hard to see my nigga in that grave, this shit crazy
I give all this shit back just to get you back (Give it back)
Tatted on my back, know you got my back
The chains and the ice don't amount to that (Ice)
Lost my nigga, lost my dog, I can't handle that
Lost myself in the process, I can't go back to that (Can't go)
Scratch the paint off the wheels, everything black on black
Guess I'm emotional now, I'm not approachable
Got a Glock inside the vocal booth
Can't trust these niggas, fuck 'em, how I'm supposed to get over you? (Take)
Ain't been the same 'cause this pain fuck up everything
I mean everything, I even lost the wedding ring
Need to talk to you, my brother, just say anything
Till we meet again

I lost my brother, but I gained an angel
I remember all the times we had, forever I'm grateful
If I could get one more time to see you again
I would hold you tight and never let go, my friend
I lost my brother, but I gained an angel
I remember all the times we had, forever I'm grateful
If I could get one more time to see you again
I would hold you tight and never let go, my friend
