

## Prada Myself

Offset

Nigga turned friend to a foe  
But I had to learn to let it go  
Coming like a man, as a pro  
Niggas gotta pay me for the show  
Hundreds coming ten in a row  
We was hiding bands in the sofa  
Off the private jet to Bossa Nova  
Then we go to Toca, 100 thousand in the Rover

Baby, it's been a long time, I ain't been Prada myself  
Baby, it's been a long time, I ain't been Prada myself  
Baby, it's been a long time, I ain't been Prada myself  
Baby, it's been a long time, I ain't been Prada myself

All I want is all I need  
All I have is what makes me, me  
(All I want is all I need) All I want is all I need  
(All I have) All I have is what makes me, me

I've been feeling low, racks on the floor  
I can do this shit alone, but nothing like the bros  
If I ever did you lame, I hope you let it go  
Let it be  
We got racks to get to flex on nigga in the street  
I ain't reach a peak  
I remember rocking shows out in Tennessee  
I remember in the Sprinter, we was getting geeked  
I've been workin' on my mental, tryna keep peace  
Trapping in the bando, we was ten deep  
I remember selling Nikes for a couple tees  
I remember we was striking for the first week  
For the guns, we was fighting nigga every week  
I get excited, man, I can't believe  
Nigga fucked around and made it to the fucking league

All I want is all I need  
All I have is what makes me, me  
(All I want is all I need) All I want is all I need  
(All I have) All I have is what makes me, me  
All I want is all I need (Is all I need)  
(And all I have) All I have is what makes me, me
