

PRINCESS CUT

Offset

Flooded that bitch in some diamonds, I call her diamond
She looking fine to me
She got a princess cut body, hop in the 'Rari
I told her drive for me
I like my bitches out stylish, Dior her wallet
I told her vibe with me
I told the bitch you gon' die for me, cry for me
But don't lie to me
I tell her clean up the house for me
When I get back, I fuck on the balcony
I like the way she go down on me
Suck it, she swallow, devour me
Get naked, get in the shower with me
Know I'm the king, baby, bow to me
That nigga broke, he a clown to me
Fucking, I'm stroking her sound asleep

Go to sleep, go to bed
She flexible, put her leg over head
I'm flexible, leave the racks on the bed
She do what I say 'cause I'm Simon Says
When I fucked her the first time, it blew her head
Better not play with a boss, better use your head
Bought a Marni, the scarf, just to wrap her head
Wish me well, I'm a real player
Put you in Chanel, got a Dior smell
Diamonds hitting, singing to me like Adele
It's the details, hair with the nails
When I dress you up, it's like a fairytale
When I bless you with these racks, don't ever tell
I'm in Margiela, I done took it left
In the ocean let the boat sail
I be getting money, like, for real
Gon' on with that nonsense
Bought a car and then I bought a crib
Gon' and put it up for content
She only got one life to live
Baby girl, I'm being honest
Thumbing through it, told me give it here
She fuck with niggas with the money

Flooded that bitch in some diamonds, I call her diamond
She looking fine to me
She got a princess cut body, hop in the 'Rari
I told her drive for me
I like my bitches out stylish, Dior her wallet
I told her vibe with me
I told the bitch you gon' die for me, cry for me
But don't lie to me
I told her clean up the house for me
When I get back, I fuck on the balcony
I like the way she go down on me
Suck it, she swallow, devour me
Get naked, get in the shower with me
Know I'm the king, baby, bow to me
That nigga broke, he a clown to me
Fucking, I'm stroking her sound asleep

Baby boy, yeah, I know what I'm doing
Yeah, I touch you right, no, I don't overdo it
Ride for you like there ain't nothing to it
When you're next to me, promise you'll never lose it
I call the place, you go when I say
I run and you chase, you fell in love with the taste, oh
Make me feel good in the midnight
You can spoil me, make me cum every damn time
Baby boy, yeah, you know what you're doing
Hit it right every time, nothing can ever ruin
I know, I know, I know

Better flood me in some diamonds, he call me diamond
He looking fine to me
I got a princess cut body, hop in the 'Rari
I told him drive for me
I like my niggas all stylish, Dior my wallet
I told him vibe with me
Told the nigga he gon' die for me, cry for me
But don't lie to me
I tell him clean up the house for me
When I get back, I fuck on the balcony
I like the way he go down on me
Suck it, he lick it, devour me
Get naked, get in the shower with me
Know I'm the queen, baby, bow to me
Never go broke, hold it down for me
Fucking, I'm stroking him sound asleep

I told her clean up the house for me
When I get back, I fuck on the balcony
I like the way she go down on me
Suck it, she swallow, devour me
Get naked, get in the shower with me
