

Army of One

The Offspring

And the world keeps on turning
As we all come undone
While the lost keep on searching
I'm the army of one

We are one but I don't belong
It's hard to feel love, when you've been wronged
But I keep on pushing on toward that light
The daylight's gone, and I am night

Feel that blow with a stinging pain
It's always your eyes, that give it away
If I'm staring down the barrel of a loaded gun
Then I'll spit in your eye, cause I'm the army of one

And the world keeps on turning
As we all come undone
While the lost keep on searching
I'm the army of one

We are one with blood and rage
It's hard to feel hope when you're filled with pain
But we keep on running on through the night
Resisting despair with all our might

Carry on, even when you cannot cope
Survival is digging in against all hope
For me, I'll never give up till the day I'm done
Cause I'm burning alive, I'm the army of one

And the world keeps on turning
And we all die alone
Broken hearts keep on searching
I'm the army of one

And the world keeps on turning
As we all come undone
While the lost keep on searching
I'm the army of one
I'm the army of one
I'm the army of one
