

## Special Delivery

The Offspring

Hey now do you see me down the way  
Been watching you everyday  
In my car on your street is where I stay  
I know you better that way  
One day I'll be meeting you for real  
You'll feel bad like I feel

It'll blow you away - You're gonna fall for me  
And the voices told me  
To blow you away - You're gonna fall for me

Hey now well I'm knocking on your door  
This special delivery is yours  
My infatuation it's true  
Hello, I got something for you

It'll blow you away - You're gonna fall for me  
And the voices told me  
To blow you away - You're gonna fall for me  
If you hadn't sold me  
I'd still be away - You're right in front of me  
Then, I'll be on my way  
Breathing you okay

Can't break from my sins  
Cannot pray

But you can't kill a man when he's got no hope  
You can't kill a man when he's got no hope
