

## The Fall Guy

The Offspring

I've never been okay with the things you make me do  
Been swallowing my pride, but I think those days are through  
I dealt with it all 'cause I didn't know any other way

I followed you around when I should have cut and run  
I gotta blame myself now it's all been said and done  
I'm done with it all now I know there's gotta be a better way

I'm a fall guy  
It's okay  
Make a small light on my way  
When I see you  
It's alright  
Never be you, with all my might

I've been running around 'cause I don't know what to do  
I thought without you there that I'd never make it through  
You can't win em all, and it's never gonna make it go away

I can't believe now I ever thought that it was fun  
I'll never look back now it's all said been and done  
I'm done with it all now I know there's gotta be a better way

I'm a fall guy  
It's okay  
Make a small light on my way  
When I see you  
It's alright  
Never be you, with all my might

I've never been okay with the things you make me do  
Been swallowing my pride, but I think those days are through  
I dealt with it all 'cause I didn't know any other way

I followed you around when I should have cut and run  
I gotta blame myself now it's all been said and done  
I'm done with it all now I know there's gotta be a better way

I'm a fall guy  
It's okay  
Make a small light on my way  
When I see you  
It's alright  
Never be you, with all my might  
Never be you, with all my might  
Never be you, with all my might
