

# You Can't Get There From Here

The Offspring

Well, I'm here in your ear to destroy all that once was so pure  
All your hopes and your dreams fall apart at the seams, I'll make sure

'Cause it may seem very near  
But you can't get there from here

Oh, come see about me, I'm the truth and you know it  
Come see about me, I'm the darkest fears  
You're listening to me 'cause you can't get rid of  
That feeling when I say, "You can't get there from here"  
I won't let you forget the things if you had only  
I'm the voices in your head like the pouring rain  
I'll take it all, but you built this palace of hate

Well, to keep you from shining, your linings of silver, I'll make  
im  
I give you this sendup, you'll end up down here just the same  
And your sun will not rise  
A thousand tears in your eyes

Oh, come see about me, I'm the truth and you know it  
Come see about me, I'm the darkest fears  
You're listening to me 'cause you can't get rid of  
That feeling when I say, "You can't get there from here"  
I won't let you forget the things if you had only  
I'm the voices in your head like the pouring rain  
I'll take it all, but you built this palace of hate

I've watched as you've tried to get by, write your name on the wall  
But you will rot in your cage as you rage from a run to a crawl  
'Cause it may seem very near  
But you can't get there from here

Oh, come see about me, I'm the truth and you know it  
Come see about me, I'm the darkest fears  
You're listening to me 'cause you can't get rid of  
That feeling when I say, "You can't get there from here"  
I won't let you forget the things if you had only  
I'm the voices in your head like the pouring rain  
I'll take it all, but you built this palace  
I'll take it all, but you built this palace of pain  
You built your palace of pain  
You built your palace of pain
