

You

Ofra Haza

Late in life you came to me
And you put a sign on me...
Late in life... What remained of you - when you fell into a trap of sice?!

You... you... you...
Only you...you... you...
All your love - that I love...
All your love...

Like a man who plays the game as a healing for his PAIN -
You played your game - again and again -
Crazy, insane, deep in love...

You... you... you...
Only you...you... you...
All your love that I love
All your love
