

# Alive

OG Maco

In the evils [?]  
At night, in the calm of the storm  
It made you one  
I feel alive

I feel alive, I feel alive  
I feel alive, I feel alive  
I feel so alive, I'm feelin' alive  
I feel so alive, I'm feelin' alive  
I feel so alive, I'm feelin' alive  
I feel so alive, I'm feelin' alive

So alive you need to wrench from me  
Take a bullet to the face or something  
We the type to act a fool in public  
Still shopping, eat the food of puppets  
Who got drugs in this bitch?  
What you smokin' lil nigga?  
Few of us'll bring in M's  
We the chosen lil nigga  
Time is now to start a revolution  
Fuck 12, fuck the institutions  
Goddamn

In the evils [?]  
At night, in the calm of the storm  
It made you one  
I feel alive

I feel alive, I feel alive  
I feel alive, I feel alive  
I feel so alive, I'm feelin' alive  
I feel so alive, I'm feelin' alive  
I feel so alive, I'm feelin' alive  
I feel so alive, I'm feelin' alive

We put the trap in a dead end  
Taking lives for these dead men  
Take my advice and defeat your vices  
Winter nights won't be the nicest  
Take your pride and then sacrifice it  
Know your rights and then exercise 'em  
Dream big and don't undersize 'em  
Yeah yeah  
Who know but you the shit that's come easy  
Niggas want beef, the game will get greasy  
Not 'fraid of [?], I hardly get queasy  
Media greedy, want the fettuccine  
Genie, Houdini, making magic happen  
Unleash the Kraken, plottin' war like Patton  
Life is my visions, haters hate, I happen  
Rage in my instance, hope you keep me balanced  
Ay man

In the evils [?]
