OG Maco

Its a championship [x3]  
I got six rings, its a championship  
Its a championship Oo

Its a championship []x4  
I got six rings [x4], its a championship [x2]  
I got six rings, girls kissing on lips, I got foreign whips  
My ice go drip, its a championship [x3]

I'm a champion, legend like Muhammad Ali  
Flipping the money like Tony Hawk Ollie  
They didn't see it coming God had disguised me  
When I look into the scope like I'm a pirate  
The government talking bout stopping the violence  
They slaving our people, we start up a riot  
Predicted my future like I was a Mayan  
In the jungle got the heart of a lion  
Investigation, niggas snitching they lying  
I picked up an ark like I was Noah, championship rings like Balboa  
Finessing niggas, smoother than velour  
Real trappers hopping out the Porsche  
All this pain, I got scar sores  
Got the game in a lock like the figure four  
You say you a champ, what you did it for?  
I told my momma go and get the Porsche  
All that yelling, you didn't know your voice is hoarse  
But I listened to it, it was in my core  
All these haters around me I just ignore 'em  
I go to the Bible to get a source  
Don't fall in love even though pussy moist  
She bit the apple that's the reason for it

Its a championship []x4  
I got six rings [x4], its a championship [x2]  
I got six rings, girls kissing on lips, I got foreign whips  
My ice go drip, its a championship [x3]

Its a championship, I'm no Dan Marino  
More like Steve Montana, speaking on my MO  
Consistent Tom Brady, rookie Russel Wilson  
I will go the distance, win by feet not inches (yeah, yeah)  
Trophy models and the play in motion  
We ain't woofin' when the [?]  
Shittin', shittin'[?]  
Never fluke, never Eli Manning  
She thirsty, starving, she just wanna dead it  
I'm super focused with her like an addict  
I'm timeless like diamonds, [?]  
This gold on my chain screaming fuck the badges  
I see through your [?]  
Breaking the game screaming fuck the damages

Beat em like Bruins, Red wings how we use them sticks  
This fire on me but it ain't a bic  
I'm rarely tired and I never loose  
Achieve it, defeated, ain't hard to choose  
I come from a city where stats matter

Team dependent like the ninth batter
