Somethin' on my mind  
Elephant in the room  
Us youngins runnin' shit  
Big homies in their youth  
And the courage turn to power  
No country for the cowards  
And the courage turn to power  
No country for the cowards  
Somethin' on my mind  
Elephant in the room  
Us youngins runnin' shit  
Big homies in their youth  
And the courage turn to power  
No country for the cowards  
And the courage turn to power  
No country for the cowards

I've been thinkin', I've been brainstormin'  
She been suckin' on me, gave me better thoughts  
I'm makin' records, thinkin' of a lot  
I took a second, said it, boy you awesome  
Got your girl wetter than a crème adoucissante  
Play the part, so major, no percussions  
Never doubt so hard [?]  
Hard flippin' got my blood boiled  
The time is now, what you waitin' for?  
Finesser vision through the Hermes lenses  
A living legend at a younger age  
All these bonds, help me break the cage  
I'm just sorry I'm the lord of rage  
We the rulers, check the DNA  
Fly enough to need the TNA  
Hi-def to need control room

South side, I'm just so jurassic  
My mouth wide and I'm 'bout to blast it  
I can't decide if I need it all  
We've been good since the white drawers  
Tell them pussy niggas pipe down  
Tell them youngins that we run the town

Somethin' on my mind  
Elephant in the room  
Us youngins runnin' shit  
Big homies in their youth  
And the courage turn to power  
No country for the cowards  
And the courage turn to power  
No country for the cowards  
Somethin' on my mind  
Elephant in the room  
Us youngins runnin' shit  
Big homies in their youth  
And the courage turn to power  
No country for the cowards  
And the courage turn to power  
No country for the cowards
