

# I Am Legend

OG Maco

I am legend if nothing else  
All of this for my dreams, nigga  
I am legend if nothing else  
Got me feelin' like King, nigga

Niggas act like they can't hear it  
They can't see it, fake Helen Keller  
I'm here now, it's fear now  
Who the fuck is my peers now?  
Know it ain't these young niggas  
Just mumblin', ain't sayin' much  
Before all this, nigga, gat gon' bust  
That no rush, that brand new  
Lookin' back on what I came from  
It's no surprise what I've come to  
I'm Russian Roulette with gangsta choppas  
Recollect when I am a father  
I'm Anakin, no skywalkers  
Fucked the came when I came in it  
Used to ride to shoot clubs up  
Now "Riot" has my name mentioned  
Chains on me, I slave different

I am legend if nothing else  
All of this for my dreams, nigga  
I am legend if nothing else  
Got me feelin' like King, nigga  
I am legend if nothing else  
All of this for my dreams, nigga  
I am legend if nothing else  
Got me feelin' like King, nigga

Where the hell is this promised land?  
Atlantastan ain't it, nigga  
It's Js here, it's rocks here  
And I ain't talkin' 'bout hoes neither  
One nation under rob  
With less patience we wait for God  
Breakin' laws, tryna even odds  
Breakin' hearts, tryna get in drawers  
Pulled apart for our natural flaws  
Light skinned vs dark skinned  
White man vs black man  
Want the sin on all us  
Just 99 percent bullshit  
It's hard times in this end game  
The end is night, but I can't complain  
Burn it down with these super flames  
Mistrials and lies make our truth wane  
Despite our pride, let's beat the shame  
Birthrights we need to claim  
I worked for chains, come and fuck the fame  
Cause I am legend

I am legend if nothing else  
All of this for my dreams, nigga  
I am legend if nothing else

Got me feelin' like King, nigga  
I am legend if nothing else  
All of this for my dreams, nigga  
I am legend if nothing else  
Got me feelin' like King, nigga
