

# Legends

OG Maco

I dare a fuck nigga to talk to me  
I dare you to think you can move how bosses move  
You lookin at a legend  
I dare you don't get me confused, my nigga  
We rebels, so fuck all the rules nigga  
You looking at the legends

It's me and Metro making moves like Marvin  
If y'all tryna limit, fuck your Magna Cartas  
Cuz we living legends kicking as in Sparta  
Ain't no sparing sparing, we just bury niggas  
Crept-tivities tracks, murder scene in my closet  
If you copped it, I've been bought it  
Been bout it, one audi  
Fuck it, I don't miss it like my haters  
We ain't ask for no favors  
I don't wanna talk  
Bruh they pigeons, we the hawks  
Word of mouth gotta stop  
Indifferent to snitching lil bastards  
How dare a fuck nigga to let his guns rattle  
Want some gun battles, tryna try your luck  
How your bitch trash but you so secure  
Talking cash, but you look impoverished  
Speaking to him tryna share knowledge  
We don't know him, anything can happen  
Shit like sargent's looking at a captain  
At 3 in the mornin' you out like magic  
The cops is on us we don't know what happened  
Bitch, we indifferent niggas  
We've been living savage

I dare a fuck nigga to talk to me  
I dare you to think you can move how bosses move  
You lookin at a legend  
I dare you don't get me confused, my nigga  
We rebels, so fuck all the rules nigga  
You looking at the legends

Carbon copy of my last car and of my newest one  
Always let a ho shoot for somethin'  
I was money hungry formulating hundreds  
Thinking dividends, spending 20's 50's  
Stack 'em Benjamins like we've meant 'em niggas  
Here's your dirty money in the dirty duffle  
We want all the chip and the extra ruffles  
Want a private jet streaming fuck a world up  
How I'm here? It happened on the double  
Plus it's 6, 12, like 11 or somethin'  
Hittin' licks put disposals my brothers  
[?] jet [?] lane  
Pussy plus I'm as big as a dane  
Eat deez grits cuz I'm goin' insane  
You can just touched for the link on your chain  
Brains mashed from just mentioning names  
OGG, bitch it's just me and my gang  
Please, fuck Alexander Wang

Maison Margiela just call me names  
Niggas fighting over petty change  
Bitch biting on me, fucking lames  
So I'm just focused on the profit margin  
I'm unconcerned unless them commas marchin'

I dare a fuck nigga to talk to me  
I dare you to think you can move how bosses move  
You lookin at a legend  
I dare you don't get me confused, my nigga  
We rebels, so fuck all the rules nigga  
You looking at the legends
