

# Night Like This

OG Maco

On a night like this  
Who knows what we sipping on  
On a night like this  
Room full of clouds, we've been chiefting strong  
On a night like this, we hope it never ends 'less we get to some'  
On a night like this, on a night like this

We the type to get it lit  
Fire in our lungs, what you smokin' on?  
Have you ever faced a zip  
Rolling in a joint, house moving gift  
Ask Corbin if you think I'm playin'  
Kush club captain, bitch the fuck you sayin'  
These niggas ain't sayin' nothin' like they bank statements  
You don't love this money you just love complaining  
The blue one or the brown one, I'm just contemplating  
Complacent, never been it, had to build a steady  
Now we laughin' in they face, haha  
In a Challenger to dodge a case, Au revoir  
We just screamin' out live life

On a night like this  
Who knows what we sipping on  
On a night like this  
Room full of clouds, we've been chiefting strong  
On a night like this, we hope it never ends 'less we get to some'  
On a night like this, on a night like this

We the type to get lit  
Take a dab, sip your cup, face a three fifth  
Huh, you ever fucked a whole clique?  
One was tryna hit, then they all came  
Ass kinda thin, you with the slim waist  
Rose sipping, kiss me, go to waste  
Pretty [?] on the face  
Nothing on me but this [?]  
Get's it done, now we party mama  
Just for fun, let me spend it on us  
Niggas over there some hummers  
Imma make us [?] my piranha  
Flashing lights, fuck the drama  
We just came for the moment  
In the club and we been on it  
Burning loud, don't got karma  
Bitches smell us, want to come in  
And they wonder why they on us  
Yeah yeah, yeah yeah

On a night like this  
Who knows what we sipping on  
On a night like this  
Room full of clouds, we've been chiefting strong  
On a night like this, we hope it never ends 'less we get to some'  
On a night like this, on a night like this
