OG Maco

I plead the fifth on these niggas  
No further questions, it's take down my answer and say that I said that we w  
inning  
I got a question for niggas  
Mapped out this shit in December, was working for dinner, but do you remembe  
r?  
Ain't too much talking or listen  
You was just there for the bottles and bitches and tagging us all in some pi  
ctures  
So I got a question for niggas  
Stepping on couches and benches for listens and all of my niggas remember

Hundred pack, gas light on  
Gotta get the work back home  
I'm a test the life by the mile  
I'm disgusted by the price of a smile  
Wake up and you couldn't stand for it  
Making movies, youngin giving orders  
Shit ain't scripted, it just get recorded  
Life an epic raid on the low  
Take some miss and rarely getting sorted  
Naked pictures, bitches wearing floral  
Mouth wide, gator he ho  
Seen the throat, say it ain't so  
What's the quota, quote me on the numbers  
What's the quotient, dig me with my brothers  
Long nights, [?] on floors  
The long nights shooting for a cover  
Must've got the timelines wrong  
Never miss, we're with them other niggas  
Taking vacations in one timezone  
Flew through 5 in one flight home  
Bigger stages, painting bigger pictures  
Fucked your lady, feeling [?]  
Peeling scabs and aggravating healing  
They don't see it eating on your soul  
Must've got the timelines wrong  
It's my time 'til my heartline gone  
Beep beep, Yee KG  
'Bout to talk to 30 on them though  
What they said 'bout worrying, sticks and stones  
What they say, I prolly won't hear  
Money counter loud like it's Bose  
In the [?] with a tree by the door

I plead the fifth on these niggas
