

## Sheesh 2

OG Maco

It's Live Life

OG Mac

It's crazy, it's like it came so fast so short dog  
We knew though:

You cry before you laugh about it  
Don't be reckless, think before you spaz about it  
You gonna drive yourself to ruins try'na grab that Audi  
I'm working twice as hard, to you to me I'm barely trying  
I'm speaking all facts while they barely lying  
Teaching young'ens g-code after fonix  
Them streets gonna be around that's if you really want 'em  
Just know this life has plenty pain and many days storm'en  
Bunch of cloudy rooms and you are rarely asked a question  
More shit is assumed, and everybody want they bless'en  
We just try'na get our own salad extra dressing  
East St. Loin you can smell it when I'm sweating  
A nine to forty five and the lord is my protection  
I'mma chase this greatness, just use your latness, this my latest  
Say the same word everytime I see my haters  
And fuck these skemeing bitches while they lie they'd locations

Same niggas I came with  
Same niggas I bang with  
Same niggas I came with  
Same niggas I'm getting change with

Yea, yea, yea, yea  
New bitch, new pimp, I want new roley  
Same wrist that done cooked pot  
Mid-pound of them zip-lock  
Got a pound, no zip-lock  
Do'en flip flop, realest story I ever told  
I [?] I ever sold, I ain't never told  
Real nigga from the bottom  
Stay down till the autumn  
Me and OG back around, back a [?]  
Young nagga ball'en hard like we hit the lottery  
Young nigga with a lot of money  
Young nigga with a lot of homies  
[?] still posted to the west  
Every bitch that's a bless  
Hundread bands I'm finesse  
Young nigga young nigga  
Made outta the street  
Nigga I was dest  
Young nigga, young nigga  
Made it from the street  
Nigga, noth'en different
