I don't know what they hating for, they don't know what I been through

Pray to god to close hell's doors, show me light that I can walk to  
Unless it come from that 44, need less and they want more like

Like fuck states, I need a war tour, shining nice in my dreams nigga  
China white in my jeans nigga, money here so them chickens lurking  
They ain't Popeyes, [?] tryna bless the world with these new verses  
Make speakers knock and start a new disturbance

They ain't know my purpose, I was just working

I was just walking 'fore you seen me swerving

No bottom promise just a lot of problems

My nerves hurting, Atlanta stand in this black turban

Trap hot and them goons lurking

Handle that and get room service

Risk [?] and call room service, tell em give your girl my room number

Sweep her up, my broom service

She a bad bitch, maybe [?] on my broom twerking

I'm still tipping on four fours, wrapped in Volvos

Dirty Sprite in my foam, money all on my phone

They don't know what they talking bout

I'm the one to try and talk it out

Bitch you ain't talking right so I'm in your mouth

Handle mine in due time, I don't walk around like Ironman

But this steel [?] hand will make you think I'm lying

Future bright so I think I'm shining

Know a lot of niggas want to undermine it

Rather see me under then draped in [?]

Draped in gold, my pharaoh coat

Born to win like [?] nose, born to win and these hoes know

On they mind like good weed

Play the outside, I shoot good threes

Still cooling like a winter breeze, need [?] for those [?] bees

Cause I need all of my royalties, real niggas been loyal to me

Live life an empire, we just tryna live royally

Put the engine up when them [?], horses running behind me

Pride run inside me, niggas mind on how I say

Mindstate on that grind state, [?] on my plate

Well done when I cook it up, paper chasers, they putting up

Real nigga, that's ingrained, live life in that fast lane

Sipping lean, spit cocaine

Real nigga that's ingrained, living life in that fast lane

Rap mixed with cocaine

I'm still tipping on four fours, wrapped in Volvos

Dirty Sprite in my foam, money all on my phone
