

# The World

OG Maco

We are the answer (We only want the world)  
We are demented (We only want the world)  
We are the future (We only want the world)  
All the young niggas singing this song  
In the night you can hear 'em

We are not here to impress  
We are dressed to confess  
We are shitting on a nigga  
We are the last ones left  
We are the first ones here  
This came right off the shelf  
And I got the warfare Rick's  
Always with the hype beast shit  
Always on the like me shit  
Always make it pass some pussy  
Its crazy now I got good sense  
He counted all the money like a good pimp  
Its a crew wide and we want whips  
Cost a crew vert and a good soul  
Started making fire when it got cold  
Want to breed the winner 'fore it drop slow  
We are not here to impress  
We are dressed to confess  
We are shitting on a nigga  
We are the last ones left, yeah

We are the answer (We only want the world)  
We are demented (We only want the world)  
We are the future (We only want the world)  
All the young niggas singing this song  
In the night you can hear 'em

We are the the still untamed  
We are the souls unclaimed by the monster in the TV  
We are the more profane  
We think the funk make it better  
We all are not afraid  
This ain't what your grandma played  
This ain't with the nigga with the chains on me  
Shit was never good homicide anyway  
Folded nigga sucker nigga moving dead weight  
Ain't no one to talk to this not a fair  
Niggas snitching talk to anyone about their friends  
Real grimey, talking sewage pop some Forgi' rims  
I think this new fame need some new M's  
We are the the still untamed  
We are the souls unclaimed by the monster in the TV  
We are the more profane  
We think the funk make it better  
We all are not afraid

We are the answer (We only want the world)  
We are demented (We only want the world)  
We are the future (We only want the world)  
All the young niggas singing this song  
In the night you can hear 'em
