

Worried

OG Maco

As long as scales work, I'm worried
As long as there's work, I'm worried
A nigga going hard for the learning
A nigga spent a whole night serving
As long as scales work, I'm worried
As long as there's work, I'm worried
A nigga going hard for the learning
A nigga spent a whole night serving

I got another phone, still work
We never talk on phones on purpose
We had to switch it up and get drastic
We fought at stick from plastic
The club's full of drank and its active
My niggas got the full metal rackets
I'm counting eyes closed, counting backwards
We flow like VVS's on them bastards
Got the four and its active
There's a whole lot of pussy niggas capping
We went and grabbed a scale from [?]
We spraying shit first, bail after

As long as scales work, I'm worried
As long as there's work, I'm worried
A nigga going hard for the learning
A nigga spent a whole night serving
As long as scales work, I'm worried
As long as there's work, I'm worried
A nigga going hard for the learning
A nigga spent a whole night serving
