Small boy, big teeth Going in for a bite Small world big dreams Spilling ink on your life And now the champagne's raining on your window And you're all alone Dream house built inside a snow globe But there's no one home Slow down Slow down Slow down Slow down You can have it all but you never stop 'Cause all you ever want is the cherry on top And all you ever dreamed of, it ain't enough You'll never fill that hole with the cherry on top You can have it all but you never stop 'Cause all you ever want is the cherry on top And all you ever dreamed of, it ain't enough You'll never fill that hole with the cherry on top Slow down Slow down Slow down Slow down Too late, freight train Spinning out of control And I've been waiting at every station you didn't notice at all Looking for a rose without a thorn trapped in your thoughts And they'll never see the calm before the storm when you missed the drops Slow down Slow down Slow down Slow down You can have it all but you never stop 'Cause all you ever want is the cherry on top And all you ever dreamed of, it ain't enough You'll never fill that hole with the cherry on top You can have it all but you never stop 'Cause all you ever want is the cherry on top And all you ever dreamed of, it ain't enough You'll never fill that hole with the cherry on top

Slow down Slow down Slow down Slow down You'll never fill that hole with the cherry on top

And now the champagne's raining on your window And you're all alone
Dream house built inside a snow globe
But there's no one home

You can have it all but you never stop 'Cause all you ever want is the cherry on top And all you ever dreamed of, it ain't enough You'll never fill that hole with the cherry on top

You can have it all but you never stop 'Cause all you ever want is the cherry on top And all you ever dreamed of, it ain't enough You'll never fill that hole with the cherry on top

Slow down
Slow down
Slow down
You'll never fill that hole with the cherry on top
