

## Favor Friends

Oh Land

Text me when you need my things  
Call me when you need the shoes i'm in  
Never ask how i got here  
Then what do you care  
Breathe all my air, i'm suffocating

Seventeen months, no sin  
Never thought we'd make it 'till the end  
So why ask how i'm doing  
Act so confusing  
Don't be polite it's overrated

Cut it out, cut it out  
Take off your halo  
No blame, no  
Can we just be favor friends?  
Wrap it up, wrap it up in cellophane, oh  
No shame no  
Can we just be favor friends?

Browsing through my contacts then  
No need to be playing sad violins, honey  
I wish you only love, fame and money  
Dance in my mind periphery  
You're busy bee  
Don't say you miss me  
You busy bee  
Take all you can and leave  
You busy bee  
Don't say you miss me  
Dance in my mind periphery

Cut it out, cut it out  
Take off your halo  
No blame, no  
Can we just be favor friends?  
Wrap it up, wrap it up in cellophane, oh  
No shame no  
Can we just be favor friends?

Eeny meeny many minute  
Need another need another  
Favor favor, wanna do a favor?  
Eeny meeny many minute  
Imma need'a, imma need'a  
Favor favor, wanna do a favor?

Cut it out, cut it out  
Take off your halo  
No blame, no  
Can we just be favor friends?  
Wrap it up, wrap it up in cellophane, oh  
No shame no  
Can we just be favor friends?
