

# Little Things

Oh Land

Caught in the little things  
To distract from what  
We're all wondering  
What will be there to protect us?

We're sorry, we are closed, rushing  
Paperbacks are torn, traffic  
Red lights blinking  
I won't make it tonight

And my lips are closing now, kiss me  
Eyes that shut me out  
Embracing day after day, working it out

Caught up in the little things  
To distract from what  
We're all wondering, wondering, wondering  
Why are we here in the first place  
Tiny little cars down there  
It's a long fall  
We're all wondering, wondering, wondering  
What will be there to protect us

It's the little things  
It's the little things  
It's the little things  
It's the little things

And I scream against the wind, hear me  
Will you leave it in my hands, count me in  
Story is mine, live it  
I'll jump for your life  
Imma 2 steps from the stairs up to my baby  
Gonna toss out all the doubt  
'Cause I am ready  
I'm a little late, 'cause lately I've been aching  
And I know that I've been all around  
But you've got me all now

Caught up in the little things  
I didn't sleep much! And did I do enough?  
To distract from what  
Will a hurricane sweep us? Into the dark blue cloud above  
We are all wondering, wondering, wondering  
And am I able to be a wife and a friend and a rebel  
Why are we here in the first place  
Settle down and live in a fable. Peter Pan lost at the pool table  
Tiny little cars down there  
Am I looking for trouble? Seeing stars in the Hubble?  
It's a long fall  
We are all wondering, wondering, wondering  
I'm forever so blind in this puzzle  
What will be there to protect us

It's the little things, little things, little things....
