

## Dreadful Heart

Oh Sees

This dreadful heart is surely so  
And by tonight dear, I'll surely know  
It's like an eye in the clouds  
It's like your hand around my throat  
Your love is dry, your love is hard  
Your love has sullied this night's star

This awful day will surely end  
And when the smoke clears, we ain't friends  
Do you like my house? It won't burn  
And like my shit luck, it will not turn  
Your love is dry, your love is hard  
Your love has sullied the midnight star

It snowed real hard, you kept me in  
The air was thick with what kept me thin  
So now you know how it goes  
It's like the white hot driven snow  
Your love is dry, your love is hard  
Your love has sullied the midnight snow
