Oh Sees

Slide over here in the setting sun
Don't pull away till the day is gone
Oh, baby, what's over there? Oh, baby, I can't say
But why do you care? Only you can know

Oh baby, glide over here on the setting sun
Don't come unglued till the day is done
Oh baby, what's going on? Oh, baby, I can't say
But why do you care? It's just you and me

What's over there? Oh, baby, I can't say
Why don't you think to look away?

(Look or look away)

Slide over here in the setting sun
Don't pull away till the day is gone
Glide over here in the setting sun
But why do you care? Only you can know

Slide over here in the setting sun
Don't come unglued till the day is done
Hey baby, what's going on? Oh, baby, I don't say
But why do you care? It's just you and me

What's over there?
What's over there?
