

## If I Stay Too Long

Oh Sees

Walking up to you straight  
Rehearsing everything I've said  
I know I say it different  
But there is no other way

If I stay too long  
It's 'cause I love you

Hoping you won't make me cry  
Like you did the other night  
People stop and stare at me  
If I wasn't right

If I stay too long  
It's 'cause I want you

Now we're sitting hand in hand  
So relaxed, I'm feeling fine  
I got a letter from your lips  
We'll forget it by the time

If I stay too long  
It's because I love you

If I stay too long  
It's because I love you

Walking up to you straight  
Rehearsing everything I've said  
I know I say it different  
But there is no other way

If I stay too long  
It's 'cause I love you

If I stay too long  
It's 'cause I worry about you
