

The Experimenter

Oh Sees

Nothing always happens when you're down here a thousand miles
Nothing always happens when you lie, lie, lie around here baby
Everybody's happy when you look outside, it's heavy
Humans are all crawling around out here in the streets

Something always pops up when you're outside, oh yeah, it's heavy
Every god damn time you got the blah blah blah in the street
Everybody's doing everybody else's thing
Everybody's talking about how, how, how it should be
