

# Apollo

## Oh Wonder

You can call me Apollo  
Give me all your pain  
I will call for your sorrow to be gone

You can call me Apollo  
Give me all your fears of the future  
Your fears of the future

Gimme a line  
Gimme a line  
Watch the telewaves go underwater from your ear to mine

'Cause I'll be here for the party  
I'll be here for the sad  
I'll be here for the high life  
I'll be here for the mad  
I'll be here when you love me  
I'll be here for the fall  
I'll be here so you just don't need to worry  
I'll be here for it all  
I'll be here forever, forever  
I'll be here forever, forever

When your whole heart's singing  
Skips a little weight  
Then you know that you'll never be alone  
When the world trips on spinning  
You will be there be, oh so safe in the future  
Safe in the future

Gimme a line  
Gimme a line  
Watch the telewaves fly over cities from your ear to mine

I'll be here for the party  
I'll be here for the sad  
I'll be here for the high life  
I'll be here for the mad  
I'll be here when you love me  
I'll be here for the fall  
I'll be here so you just don't need to worry  
I'll be here for it all  
I'll be here forever, forever  
I'll be here forever, forever  
I'll be here forever, forever  
I'll be here forever, forever

The world is only lonely if you say so  
I promise joy is coming if you let go  
Into the deepest color blue  
You know that I'll be here for you

You can call me Apollo, you can call me Apollo, you can call me Apollo, you  
can call me Apollo

You can call me Apollo  
Give me all your fears of the future

Your fears of the future
