

Better Now

Oh Wonder

You've been through it all
And I wait for the call just to know
If you're better now

22 hours, pacing the room
Praying for you, hot cup of coffee
They said you're sleeping, no news is good
Nothing to do, cold cup of coffee

Never been scared about the future
Don't think I'll make it if I lose ya

So I hope you're feeling better now, better now
Better now, better now
Yeah, I hope you're feeling better now, better now
And they've lifted the dark clouds
'Cause you've been through it all
And I wait for the call just to know
If you're better now

42 hours, the endless bleep
Vending machine, hot cup of coffee
I brought you flowers, wish you could see
Yellows and greens, cold cup of coffee

Never been scared about the future
Don't think I'll make it if I lose ya

So I hope you're feeling better now, better now

Better now, better now
Yeah, I hope you're feeling better now, better now
And they've lifted the dark clouds
'Cause you've been through it all
And I wait for the call just to know

I hope you're better now
I'd do anything for you to be better now

Better now
I hope you're feeling better now
And I hope you're feeling better, better now
And I hope you're feeling better now
And I hope you're feeling better, better now
I hope you're feeling better now
And I hope you're feeling better, better now
I hope you're feeling better now

So I hope you're feeling better now, better now
Better now, better now
And I hope you're feeling better now, better now
And they've lifted the dark clouds
'Cause you've been through it all
And I wait for the call just to know

You deserve to feel better now
