

Action

OhGeesy

Crash dummies won't learn 'til the time's up
I try to stay out the way, I almost died once
I'm still hungry, I don't care about the money stack
I'm outside, just tryna grab the 20 pack
Perc 30 got her buzzing in her own zone
I told her, "Slow down," knowing that she won't though
Three phones and I'm hopin' all three dial
Hella unread texts, got a sweet price
Good dick and good smoke make her sleep right
My chains going crazy in the street light
We make Ps fly, outline the box in plastic
So if the mailman stabs it
Tryna get me?
We won't fumble a bag
Fuck a tracking number, each box come with a tag
Real-time tracking, real-life trapping
Fuck everybody, we 'bout real-life action

'Bout that action like a movie
And we don't show the shit we doing
Don't ever show the house that we just moved in
Don't even show the whip that we just cruise in
'Bout that action like a movie
'Bout that action like a movie
'Bout that action like a movie
Don't even show the whip that we just cruise in

The gang move like a secret society
Keep a lot of options and varieties
Pop another one for my anxiety
My young nigga a menace to society
My main bitch better never come lie to me
I'm a real one, baby, you hit the lottery
Fuck you how I fuck you, get it watery
Roses with the chocolate-covered strawberries
Flights over seas and the shopping sprees
Exotic whips, exotic women, and exotic weed
Take you everywhere, you mean a lot to me
Piña colada in the sand with the Bahama breeze
Got the prettiest bitches you probably ever seen
And I make her buss down, put her right on her knees
First I make her cum, then I make her leave
You added to the roster, welcome to the team

'Bout that action like a movie
And we don't show the shit we doing
Don't ever show the house that we just moved in
Don't even show the whip that we just cruise in
'Bout that action like a movie
'Bout that action like a movie
'Bout that action like a movie
Don't even show the whip that we just cruise in

'Member crashing out
They respect the action we about
The shit they getting away with wasn't allowed
'Member crashing out

They respect the action we about
We slither through your trenches unannounced
A crash dummy died
I told little bro that wasn't the one to count
You gotta run it back and try again
And you know we balling
Finna move her out that haunted house
Then take her to the lot and buy a Benz
Forgive me for my sins
Adjusted to the way I had to live
It's nothing more fulfilling than revenge
Can't overlook the losses 'cause that's what planted seeds for all the wins
Being a real one is the newest trend
The mansion lookin' pretty, ain't no point in flexing what I spend
This ain't even mines, this for the kids
Couldn't wait to cop that Audemars and wrap it 'round my wrist
My lugs here are metric, down bad about this bitch

'Bout that action like a movie
And we don't show the shit we doing
Don't ever show the house that we just moved in
Don't even show the whip that we just cruise in
'Bout that action like a movie
'Bout that action like a movie
'Bout that action like a movie
Don't even show the whip that we just cruise in
