OhGeesy

What? (What?)

I'm married to the game, I'm in love with the bag
Double-barrel AR and come with the mag
Custom clips in the whips, do the dashboard lift
I'm in Albuquerque, where the bad-ass bitches?
Keep my enemies sick, nah, they can't keep up
They fucked the chicken off, now he can't re-up
Old 20s make the bag smell moldy
I'm tryna shake the old me
Burning up the OC
Me and OhGeesy, house full of breezies
Haters wanna kill me, but that won't be easy
Flip a hunnid bands and make a half milly
Sell a couple bags, when the pack land in Philly
I'll be somewhere out the way
Probably off the 'shrooms
My lil' homies filled the room and filled balloons
This that next-level bag talk, nah, I can't be touched
Four-hundred million that's not, nah
I bet they couldn't walk in these shoes, I'm busting moves
I came to win, I can't lose, they look confused
How I make the bitch chose in them dirty white shoes
501s with the throwaway too

They filled the room and filled balloons
Fresh off the zoom, I'm off the 'shrooms
I pour a zip, not a tablespoon
This for the homies in the clouds
White tee the same color as cocaine
This a good day today, I'ma rock both chains
Yeah, all this pain, I'm taking two to the brain
This for the homies in the clouds

You smell the cookies, I walk in the room
That shit walk in, and it smell like perfume
Take it off, baby, do what you do
I'ma star, take you to the moon
I like to stay and watch it while you twerking
I got that pound for four hours off that perky
Yeah, I'm clean, but my soda really dirty
Bullet proofed up with that, said they wanna hurt me
Don't tote less than .30
My young nigga, he learned it
My young bitches got Birkins, and I charge too much for verses
We breaking all the curses, getting money, that's for certain
Maybach with the curtains, hella wavy, bae, I'm surfing

They filled the room and filled balloons
Fresh off the zoom, I'm off the 'shrooms
I pour a zip, not a tablespoon
This for the homies in the clouds
White tee the same color as cocaine
This a good day today, I'ma rock both chains
Yeah, all this pain, I'm taking two to the brain
This for the homies in the clouds
