

## Mind Made God

Ohgr

Tainted time

Insanity, a way to think a causal link that's broken into crime  
Disparity, the thankless gift creates a rift that pushes past their line

Sincerity, decries the worst of you who sell the faded lie

I tried to desecrate the broken thinking mind

Your charity implies the worst of views whose hell has painted time

This heresy unveils the truth about the sleuth who sought and went to high

To find another race replace him in the sky

The piece of mind that made God is dead so let's discard it

The peace of mind that make God is dead, sold, and retard it

Your purity inflates the worst of views that complicate your mind

Erected statues of ill-fated tainted time

Incites a crime in those with cultivated minds

And watch the base expose the fascist space and time

The piece of mind that made God is dead so let's discard it

The peace of mind that make God is dead, sold, and retard it

Start it Start it

Makes things so like differences collide

Causation makes him more like such a big low life

Sensation, heart rate's racing

Feels like strategies implication explodes insanities nation

Why, why? It's only wasted time

The piece of mind that made God is dead so let's discard it

The peace of mind that made God is dead so let's restart it
