Ohm Square

I'm losing control

Come to me, ravish me, I'm oozing my soul I've been searchin for ya

Come to me, ravish me, I'm losing control

Infiltration, forbidden exploration, I will swallow you  
Infiltration, forbidden exploration, forbidden exploration, I will swallow you

Talk to my body and my body won't stop  
Keep on moving cos you really don't wanna stop  
Talk to my body and my body won't stop  
Keep on moving cos you really don't wanna stop  
Keep on movin keep on movin

I been waitin all this time

Come to me, ravish me, I'm oozing my soul, you know I'm losing control

If you don't come to me, I'm losing control

You cannot protect yourself, the vision is of no one else  
You cannot protect yourself, not even hide as some one else  
Bring it on bring it on and take it back home

I cannot begin to fake this feeling of an earthquake  
Vibrating landscapes, I feel it when I stay up late

I so empty like sky, the very thought of you fills my week/weak days and nights. Makes my beats sound just right

I'm losing it

the very thought of you fills my week/weak days and nights. Makes my beats sound just right

Talk to my body and my body won't stop  
Keep on moving cos you really don't wanna stop  
Talk to my body and my body won't stop  
Keep on moving cos you really don't wanna stop

When will I find you?

And will you look like me?

And will you sound like me?
