On that Ac', I love to pour  
[?] codeine coming out my pores  
Hi-Tech red, it keep me geeked  
Green, pour me up, that make me sleep  
Back when I had pints of orange  
We laced the blunt, now we smoking sherm  
But now I got that Actavis  
Young Juiceman, he don't be sharing  
Smoking up the Cali gas  
Freddie sent the gas and don't be caring  
Pull up in that '71  
Halloween donk, black and orange look scary  
How you get them hustling skills? I got it from my business [?]  
Just put me a 4 into it and now my cup is extra berry (Aye!)

Momma said stay off of it, I said that's just that cough syrup  
She say the way I drink it, boy I might need me a counselor  
Smoking up the gas and my lungs like a muffler  
Glock 18, extension clip and a muzzler  
Drinking up the lean like I play with Houston Oilers  
Flying in a Bentley, over 1600 spoiler  
Posted in the hood, selling zips, I baby barter  
Freddie sent the cases, 1500 dollar barter (Aye!)
