

Three Primary Colors

OK Go

Oh, there are three primary colors
Only three are primary as truth
The world is full of every kind of color
But we're just talking red, yellow and blue

Red...
Yellow...
Blue...
Oh, these three as primary as true

Oh, there are three primary colors
Only three are primary as truth
But if you mix the primaries together
Brand new colors come right into view

Yellow and red make orange (orange)
Yellow and red make orange (orange)
Yellow and blue make green (green)
Yellow and blue make green (green)
Blue and red make purple (purple)
Blue and red make purple (purple)
And there's a lot of colors to be seen

There are three primary colors
And a lot of colors are there too
When you see another other color
It's made up of red, yellow and blue

Yellow and red make what?
Yellow and red make orange (orange), that's right
Yellow and blue make what?
Yellow and blue make green, yeah
Blue and red make what?
Blue and red make purple (purple), yeah
And there's a lot of colors to be seen
