

## Pathologically Yours

Okay Kaya

The sun heats my bones  
Till I smell a warmth  
Pathologically yours  
Pathologically yours

Dyke on Dyson  
My heart's Mike Tyson  
Pathologically yours  
Pathologically yours

You had one foot out the door  
You had one foot out the door  
You had one foot out the door

All is worthwhile  
'Cause all there is lasts only for a while  
Pathologically yours  
Pathologically yours

When you let me go  
You slapstruck my ego  
Pathologically yours  
Pathologically yours

You had one foot out the door  
You had one foot out the door
