

# Broken Pieces Of Me

Okean Elzy (Океан Ельзи)

Remember  
Sitting in a cafe, where we were  
Watching all the people pass by, remember  
We got in an argument and you walked away  
And I just talked to you in the pouring rain

Remember how we said it was never gonna die  
Remember how we loved when a song made you cry  
I don't know what happened to us  
I just know you're gone

And all I got are these  
Broken pieces of me  
Shattered pieces of dreams  
Broken pieces  
All I got are these  
Memories stuck in my head  
When will I see you again  
Come back, fix these  
Broken pieces

Remember  
When we stayed up all night, talking about  
All the things we wanted to do, you said you  
Wanna be an astronaut and fly through the sky  
I said I'll stay on Earth and just get high

Remember how we thought this was never gonna end  
And all the corny notes you always used to send  
I'd give anything to get one right now  
But you're not around

And all I got are these  
Broken pieces of me  
Shattered pieces of dreams  
Broken pieces  
All I got are these  
Memories stuck in my head  
When will I see you again  
Come back, fix these  
Broken pieces

You can yell in my face  
Tell me you hate me  
You can put the blame on me  
Say it's all my fault  
Call me anything you want to  
But call me, please, I need to talk to you  
You gotta take me back

'Cause all I got are these  
Broken pieces of me  
Shattered pieces of dreams  
Broken pieces  
All I got are these  
Memories stuck in my head  
When will I see you again

Come back, fix these  
Broken pieces

All I got are these  
Broken pieces of me  
Shattered pieces of dreams  
Come back, fix these  
Broken pieces
