

# Lighthouse

Okean Elzy (Океан Ельзи)

I see a silhouette  
When I turn around it's like you were never here  
Wonder where you go  
Are you scared to death?  
On an early train heading somewhere far away  
Been tryna call you home

Take my hand, I'll get you through the storm

When I fall asleep, I dream  
I dream of angels  
When I walk the streets, I hear  
I hear them singing  
Someday we'll be one  
Someday we'll be one  
For tonight I'll be your lighthouse  
Be your lighthouse shining on  
Shining on

I see the shadows fall  
As the sun sets low, just like a waterfall  
You melt away  
You know the winds will change  
And nothing stays the same  
I never walked away  
You needed someone safe  
I'll be your starlight  
Get you through the storm

Take my hand, I'll get you through the storm

When I fall asleep, I dream  
I dream of angels  
When I walk the streets, I hear  
I hear them singing  
Someday we'll be one  
Someday we'll be one  
For tonight I'll be your lighthouse  
Be your lighthouse shining on  
Shining on

When I fall asleep, I dream  
I dream of angels  
When I walk the streets, I hear  
I hear them singing  
Someday we'll be one (Someday we'll be one)  
Someday we'll be one (Someday)  
For tonight I'll be your lighthouse  
Be your lighthouse  
For tonight I'll be your lighthouse  
Be your lighthouse shining on
