

choke enough

Oklou

Bet you never thought that it could...

If you get choked up now
You get choked up now
You get choked up now
Well in the morning they will find you on the road

Bet you never thought that it could
Shine DTLA and the Subaru

If you get choked up now
You get choked up now
You get choked up now
Well in the morning they will find you on the road

If you get choked up now
You get choked up now
You get choked up now
Well in the morning they will find you on the road

If you get choked up now
If you get choked up now
If you get choked up now
Well in the morning they will find you on the road

I'm running low I'm running zero
(If you get choked up now)
A tunnel view without any signal
(If you get choked up now)
My foot don't know it's on the pedal
(Well in the morning they will find you on the road)
I'll crash this car to take a photo
(Take a photo)

I'll crash this car to take a photo
I'll crash this car to take a photo
Take a photo

And if I choke up now
Oh will this life grant me the space
Oxygen's level down
Or will it bring me face-to-face

But if I choke up now
Then I'll just come back home to say
How the moon's hanging up
I think my dad would appreciate
