

Chrysalis

Oklou

He didn't endure the cutting
I'm waiting for you
Sweet velvet stretching my skin
And I'm still waiting
I found the daylight coming
Don't wake up my senses
Her mind is surrounded by a glass prison
Feel like your shadow

If one day you find a chrysalis
Break it slowly
If one day you find a chrysalis
Break it slowly

Watch out
All it does is depress me
Watch out
All it does is depress me

I'm still waiting
I'm still waiting
Wait, I'm still waiting
I'm still waiting
I'm still waiting
Watch out

Time lapse
Slow motion
Every little second just hit me like a bomb
Flying high through the storm
Won't you share the spot that makes your wings so low?

Watch out
All it does is depress me
Watch out
All it does is depress me
Watch out
All it does is depress me
Watch out
All it does is depress me

You're coming
And I'm still waiting
And I'm still waiting
Not coming
And I'm still waiting
And I'm still waiting

If one day you find a chrysalis
Break it slowly (slowly)
If one day you find a chrysalis
Break it slowly
If one day you find a chrysalis
Break it slowly (slowly)
