

Anyways
What's the name of your ship again?
You make it feel like yesterday
Can you find a way to count me in

Is the endless still unbound?

Meet you there
And your friend and anybody else
Even if I swim up for air
I'll find a way to forget myself

Is the endless still unbound
Or am I just different now?
Is the endless still unbound

You and I are crossing lines and giving in confusion
I don't think I mind
It's too far, it's the new entrance into innocence
Far away is closer than it sounds

Is the endless still unbound
Or am I just different now?
Is the endless still unbound
Or am I just different now?

Is the endless still unbound?
Is the endless still unbound?
Is the endless still unbound
Or am I just different now?
