

Forever

Oklou

And if I'm bad I'm sorry, hmm
If I stirred up your somber past
If so, I'm bad and sorry
Since I went too far with you, no more
That's my word
You can slow me down
So I don't go further than you those times
I won't deny that, hmm

So this day, yeah
You will remember what happened, yeah
Happened between, between us
So this day, yeah
You will remember what happened, yeah
Happened between, between us

And if I rage don't forget, hmm
When you can see my darkest part
I just feel safe, hmm
You're soft and kind and you've got less pride
I know right, you're a damn bird
You say I never tell how I'm feeling
Well here I am naked with my words
Naked with my words, hmm

So this day, yeah
You will remember what happened, yeah
Happened between, between us
So this day, yeah
You will remember what happened, yeah
Happened between, between us

And If these lines are for you, hmm
You're either my mum or my strongest soldier
These lines are for you
I wanna fight against you always
My captain, my dear enemy
Yeah, yeah, yeah, yeah
We'll both win this war

So this day, yeah
You will remember what happened
For you and I now, and forever
So today, yeah
You will remember what happened
Between the two of us forever
So this day, yeah
You will remember what happened
For you and I now, and forever
So today, yeah
You will remember what happened
Between the two of us (between the two of us forever)

So this day, yeah
You will remember what happened
For you and I now, and forever
So today, yeah

You will remember what happened
Between the two of us forever
