

# Friendless

Oklou

I know how cold your body is, I burnt my hands on it  
I know how cold your body is, I burnt my feets on it  
I know how cold your body is, I burnt my eyes on it  
I know how cold your body is, I burnt my heart for it

Well

Sure you made my days soft  
Back in the days baby once upon a high  
Love, frozen, crystalized my body  
I know that you've been baffling so hard that I couldn't even get it  
We wait for a sign or something 'cause we want forever  
Promise me that you will never stay away from me

I know how cold your body is, I burnt my hands on it  
I know how cold your body is, I burnt my feets on it  
I know how cold your body is, I burnt my eyes on it  
I know how cold your body is, I burnt my heart for it

Well

Sure I'll take some days off  
Do you care? Yeah probably, you're sowing on the way  
Seeds, millions, thank you for the gesture  
Obviously you're baffling so hard that I can't even get it  
I'm waiting for a sign or something 'cause I know you're clever  
Will you say 'I miss you' when I fade away?  
I know who you are  
I don't wanna go back into mourning (mourning)  
Remember when I said that I've learned many things  
But you're the hardest test I've ever seen  
You're the hardest that I try to read  
The armour has been struggling  
Castle's down, volcano's dying  
The volcano has turn into ice

I know how cold your body is, I burnt my hands on it  
I know how cold your body is, I burnt my feets on it  
I know how cold your body is, I burnt my eyes on it  
I know how cold your body is, I burnt my heart for it
